State Highways	State Highways

* The Census Bureau works with other tribal governments or state officials to define statistical entities for federal and state recognized American Indian and Alaska Native tribes that have no legally defined land base. These entities are portrayed on this map with the name of the entity and a red dashed line.

** Congressional districts are in effect for the 108th Congress of the United States (January 2003-2007); all other legal boundaries and names are as of January 1, 2000. The boundaries shown on this map are subject to change. The use of the term "district" on this map does not imply that depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or responsibility for administrative, legislative, or judicial purposes or for inclusion of incorporated places based on the 2000 Census of Population and Housing.
